SMART STUFF

GSSM is the only high school in South Carolina that offers a residential experience focused on mastery of science, technology, engineering and math (STEM) education, with additional emphasis on economics and entrepreneurship. A two-year program for motivated juniors and seniors, GSSM accepts applicants during their sophomore year of high school.

Recognized as one of the nation's Top 24 public elite high schools, GSSM offers a college-level curriculum, scientific research opportunities and exposure to real-world businesses and business leaders—all for only a modest annual fee of \$2,000. What's more, gifts from SC businesses and supporters ensure that no student is denied access because of inability to pay.

Come see for yourself why smart gets smarter at GSSM!
