

GSSM Course Schedule for Incoming Juniors 2023-2024

The GSSM Course Schedule is a resource for students, faculty, and staff to find which courses will be offered in the coming academic year. This schedule should be used with the [GSSM Course Catalog](#), which has much more information about GSSM academics.

As you read through the course offerings be sure to consider the following elements:

- 1] Number of semesters. Some courses, like CSC 230 Data Structures and Algorithms, are one-semester courses. Others, like ASL101 Introduction to American Sign Language 1, are year-long courses. Yet other courses, like CHE 201 and 202 AP Chemistry, are two-semester course sequences.
- 2] Level of the course. Some courses, like BIO 202 AP Biology, are AP courses. These are clearly marked with the letters "AP" after the course numbers. Other courses, like SPA 703 Topics in Hispanic Culture and Linguistics, are listed as "Above AP". Above AP means that the course requires an AP course as a prerequisite or there is no AP course sanctioned by College Board in that area. Some courses, like ECON 210 Principles of Economics Macroeconomics, are listed as "Dual Credit". Any course not designated as AP, Above AP, or Dual Credit, is at the honors level. An example of an honors-level course is MUS110 Chamber Orchestra 1.
- 3] Prerequisites. Some courses are only available to students who have taken other courses previously. Make sure you check the course descriptions in the GSSM Course Catalog, which lists pre- or co-requisites for all courses, to see if you are allowed to take a course. If you haven't met the prerequisites, you won't be allowed to take the course.
- 3] Course format (in-person/virtual). Most courses are offered live in-person. However, some courses are offered in other formats. Any course offered in a different format will be designated appropriately. For example. ENGIN 209 Biomedical Engineering is listed as a virtual course.

GSSM Course Schedule by Academic Department and Semester 2023-2024

American Sign Language (ASL)

Fall	Spring
101 Introduction to American Sign Language I: year-long (<i>Virtual Synchronous Course</i>)	

Biology (BIO)

Fall	Spring
BIO 202 AP Biology	BIO 201 AP Biology
BIO 302 Marine Biology <i>(above AP or DC)</i>	BIO 305 Introduction to Microbiology <i>(above AP or DC)</i>
BIO 303 Molecular Biology <i>(above AP or DC)</i>	BIO 306 Neuroscience <i>(above AP or DC)</i>
BIO 304 Human Anatomy and Physiology <i>(above AP or DC)</i>	BIO 308 Botany <i>(above AP or DC)</i>
BIO 311 Medical Mycology <i>(above AP or DC)</i>	RES 406 Research in Hydroponics
RES 406 Research in Hydroponics	RES 407 Research in Soil Microbiota <i>(above AP or DC)</i>

Chemistry (CHE)

Fall	Spring
100 Principles of Chemistry: year-long	
201 AP Chemistry	202 AP Chemistry
203 DE Chemistry <i>(dual credit with FMU)</i>	204 DE Chemistry <i>(dual credit with FMU)</i>
	300 Introduction to Organic and Biochemistry <i>(above AP or DC)</i>

Chinese (CHI)

Fall	Spring
101 Introduction to Chinese I <i>(dual credit with Coker)</i>	102 Introduction to Chinese II <i>(dual credit with Coker)</i>
201 Intermediate Chinese III <i>(dual credit with Coker)</i>	202 Intermediate Chinese IV <i>(dual credit with Coker)</i>

Computer Science (CSC)
